About ———

Second-year Software Engineering student with a strong passion for web development and AI integration. Skilled in building responsive web applications using React and Next.js, with hands-on experience integrating OpenAI's API to create intelligent user experiences. Actively working on real-world projects to deepen frontend and AI skills. Eager to contribute, learn, and grow through an internship or junior developer role in a dynamic tech environment.

Educational History

Bachelor of Software Engineering | 2024 - 2028

NCIT College

PROJECTS

📘 DevHelp AI – Developer Q&A Assistant
Personal Project | 2025

Built with Next.js and OpenAI API. Provides instant coding help, bug explanations, and code suggestions based on user questions. Mimics a Stack Overflow-like experience with real-time AI responses.

- Key Skills: Next.js, OpenAI API, Prompt Engineering, React Hooks

📊 Finance Tracker Dashboard
Self-Initiated | 2025

A responsive dashboard app to track daily expenses, set budget goals, and visualize spending trends using charts. Data stored locally or with a backend API.

- Key Skills: React, Chart.js, CSS Grid, Local Storage/API Integration

📚 AI Resume Builder
Personal Project | 2025

Smart resume builder using OpenAI that generates bullet points, summaries, and job-specific keywords. Users can download polished resumes as PDFs.

- Key Skills: React, OpenAI API, Form Handling, Tailwind CSS

Currently seeking internship or junior developer roles. Let's build something impactful together
